Multiple 5300k Frameless High Power Light Panels Create A Seamless Backlit Wall of Livingglass which greets the guests at the Super Premium Delta ONE™ at LAX.
#LAX to LUX

EOS helps Delta Airlines greet their guests at the inaugural Delta One™ at LAX

Imagine a private, premium check-in experience at LAX, accessible exclusively to Delta One™ passengers. A check-in where you can kick back while we handle all of your luggage and travel details.

EOS provided the internal illumination for the gorgeous glass wall from Livingglass, a local LA organization that creates one-of-a-kind art out of recycled fabric, polymer and of course, glass.

Hotel Chicago Downtown
Part of Marriott's Autograph Collection

eos paints the Hotel Chicago Downtown with Light

Merging the balance between its illustrious past and limitless future, the Midwestern metropolis hotel invites you to embrace Chicago's iconic architectural history, particularly, that of the Marina Towers that are distinguishing features in this notable city block.

The design team was inspired by Chicago's Architectural history and 12,000 square-feet of the hotel that was converted through detailed renovation to be part of the Autograph Collection, a city known for reinvention and transformation.

Acting as a frame to Chicago's expressive and innovative scenes such as the House of Blues and Tortoise Club, the hotel reflects the courage and legacy to invent and inspire -just like the city
